Christos Galanopoulos

DevOps Engineer

DevOps Engineer and Microsoft MVP with hands-on experience architecting, automating, and optimizing mission-critical deployments across complex infrastructures. Proficient with CI/CD pipelines, "as code" tools, cloud operations, container orchestration, and scripting. Passion for continuous improvement and a strong desire to grow and excel in the IT industry.

WORK EXPERIENCE

DevOps Engineer
PERFORMANCE Technologies S.A.

10/2021 - Present   *Athens, Greece*

Achievements/Tasks

- Designed and implemented a robust code governance framework focused on infrastructure management, significantly improving deployment frequency, lead time for changes, and change failure rate.
- Developed and maintained CI/CD pipelines to streamline processes, elevate code quality, bolster security measures, and ensure compliance with industry standards.
- Managed and provisioned infrastructure efficiently through code, ensuring scalability and reliability.
- Applied expertise in DevSecOps practices, guiding the seamless integration of security measures for a proactive "shift left" approach.
- Contributed across all phases of cloud development - from initial requirements and design to deployment, maintenance, performance tuning, and monitoring - ensuring a holistic involvement.

PERSONAL PROJECTS

blog
- DevOps-related blog revolving around GitHub, GitOps, Azure, Kubernetes, Go and other technologies.

bicep-docs
- A command-line tool written in Go for generating documentation for Bicep templates.

devops-with-github
- Library of guides and examples for effectively using GitHub with a DevOps mindset.
