

Christos Galanopoulos

Solutions Architect

Experienced engineer and Microsoft MVP specializing in scalable, secure architectures for complex environments. My work spans cloud architecture, platform engineering, DevSecOps, distributed and event-driven architectures, and AI-enabled workloads. I build modern platforms using infrastructure as code, CI/CD, APIs, and microservices while contributing to presales, solution design, and service development supporting modernization initiatives

WORK EXPERIENCE

Solutions Architect Performance Technologies S.A.

05/2025 - Present

Athens, Greece

Achievements/Tasks

- Developed structured service offerings and delivery accelerators, including Code Governance, Terraform Enablement, Infrastructure Automation frameworks, and the GitHub service suite, expanding the company's portfolio across migrations, modernization, and platform governance.
- Designed end-to-end cloud and platform architectures, translating business requirements into scalable solutions across distributed, microservice, event-driven, and AI-enabled systems.
- Led presales and customer engagements, including solution shaping, PoC design, architecture workshops, demos, and technical guidance throughout the sales cycle.

DevOps Engineer Performance Technologies S.A.

10/2021 - 04/2025

Athens, Greece

Achievements/Tasks

- Designed and implemented a code governance framework for infrastructure management, improving deployment frequency, reducing change failure rates, and strengthening delivery reliability.
- Led the design and implementation of scalable cloud infrastructure and platform capabilities supporting modern application and platform architectures.
- Developed and maintained CI/CD pipelines to automate delivery, improve code quality, and enforce security and compliance controls.
- Applied DevSecOps practices and shift-left security approaches to integrate security across the development lifecycle.

EDUCATION

Department of Informatics and Telecommunications National Kapodistrian University of Athens

09/2019 - 07/2023

GPA 9.02/10

SKILLS

Azure

GitHub

Azure DevOps

Terraform

Bicep

OPA

Go

Python

FastAPI

Bash

Kubernetes

ArgoCD

Flux

Kustomize

Helm

Azure AI Foundry

Azure CosmosDB

AWARDS

Microsoft Most Valuable Professional (03/2024 - Present)

Microsoft MVP in the areas of DevOps and Azure Infrastructure as Code.

CERTIFICATES

The Open Group Certified: TOGAF® 9 Certified

Microsoft Certified: DevOps Engineer Expert

Microsoft Certified: Azure Solutions Architect Expert

GitHub Administration, Actions, Advanced Security, Copilot

Microsoft Certified: Azure AI Engineer Associate

CKA: Certified Kubernetes Administrator

Microsoft Certified: Cybersecurity Architect Expert

VOLUNTEERING

The Tipping Point in Education (05/2025 - Present)

Student Mentor

National and Kapodistrian University of Athens
Accessibility Unit (03/2021 - 03/2022)

Student Tutor

LANGUAGES

English

Full Professional Proficiency

German

Professional Working Proficiency

Greek

Native or Bilingual Proficiency
